

Department of Artificial Intelligence and Data Science
Curriculum (Courses) and Activities planned for each courses

Subjects	Subject Type	Activities Planned		
		Mandatory	Optional	Remarks
Semester III				
Computer Networks	T	● Quiz on Interview Questions ● Internal SIH Participation	Cisco CCNA Wireshark Certified Analyst (WCA)	Both activities are mapped with Assignment 1 and 2 marks Regular lab assessment
Machine Learning Techniques	J	● Gate Questions Practice ● Research Project Literature Study		Both activities are mapped with Assignment 1 and 2 marks Regular lab assessment
Advanced Data Structures and Algorithms	J	● 30 Practice problems + 15 Final test (Industry specific) ● Codethon (Industry specific) ● Gate Questions Practice		Both activities are mapped with Assignment 1 and 2 marks Regular lab assessment
Embedded System Design	J	● IoT Project with web development ● National level Hackathon Participation		Both activities are mapped with Assignment 1 and 2 marks Regular lab assessment
Object Oriented Programming using Java	R	● 30 Practice problems + 15 Final test (Industry specific) ● Codethon (Industry specific) ● Mini project	Oracle Academy – Java Foundations (Free for academic institutions)	Mini project and Codethon are mapped with Assignment 1 and 2 marks Practice and Final test are mapped with Lab internal marks

Semester IV				
Compiler Design	T	• Quiz • Internal Hackathon		Both activities are mapped with Assignment 1 and 2 marks
Operating Systems	J	• CSE Gate Question Practice • Assessment on Industry specific Questions		Both activities are mapped with Assignment 1 and 2 marks
Database Management Systems	J	• 30 Practice problems + 15 Final test (Industry specific) • Gate Question Practice • Mini project	freeCodeCamp – Relational Database Certification	Mini project and Gate Question Practice are mapped with Assignment 1 and 2 marks Practice and Final test are mapped with Lab internal marks
Artificial Intelligence on Edge	J	• Project on Edge AI • External Hackathon Participation		
Neural Networks and Deep Learning	R	• NPTEL: Deep Learning for Computer Vision		Both activities are mapped with Assignment 1 and 2 marks Regular lab assessment
