

Subject Name	Subject Type	Activities Planned	Remarks
Optimisation Techniques	Theory	• Quiz • Case study	NPTEL courses on Optimisation for Machine Learning: Theory and Implementation; Both activities are mapped with Assignment 1 and 2 marks
Natural Language Processing	Theory	• Literature study on recent Research using NLP / CV • Research Project	Both activities are mapped with Assignment 1 and 2 marks
Machine Learning	Theory + Lab	• Gate Questions Practice • SIH Participation	Both activities are mapped with Assignment 1 and 2 marks; Regular lab assessment as suggested in Anna University
Computer Networks	Theory + Lab	• Quiz on Interview Questions • Internal Hackathon Participation	Cisco CCNA, Wireshark Certified Analyst (WCA); Both activities are mapped with Assignment 1 and 2 marks; Regular lab assessment as suggested in Anna University
Internet of Things	Theory + Lab	• Mini Project • National level Hackathon Participation	Both activities are mapped with Assignment 1 and 2 marks; Regular lab assessment as suggested in Anna University
SDC III: Advanced Full-stack with AI Bridge	Skill Dev.	• Capstone Project	IBM AI Developer Professional Certificate; Project assessment is mapped with Assignment 1 and 2
Industry Oriented Course 1: MLOps Tools:	Theory + Lab	• Coursera: MLOps Tools: MLflow and Hugging Face by DUKE University	
PE- I and II	Theory		
UI/UX & Human-Centered Design	Theory + Lab	• Certificate course on Figma/FigJam Tool • Design Project (Prepare a UI/UX design for Capstone project)	Google UX Design Professional Certificate Coursera (or) Microsoft UX Design Professional Certificate Coursera; Both activities are mapped with Assignment 1 and 2 marks; Regular lab assessment as suggested in Anna University

Full Stack Development Lab	Lab	Regular Lab as per AU	Regular lab assessment as suggested in Anna University
Compiler Design	Theory	- Quiz - Internal Hackathon	
Deep Learning	Theory + Lab	NPTEL: Deep Learning for Computer Vision	
Image Processing	Theory + Lab	- Capstone Project on CV - National Level Hackathon Participation	
Industry Oriented Course II: Generative and Edge AI	Theory + Lab	Industry organized Hackathon	
PE III	Theory		
Summer Internship	Skill Dev.
